ABOUT REFRESHER PROGRAMME

The aim for the conduct of the programme are: -

- Updating the knowledge improving organizational and pedagogical skills of teachers.
- To update the knowledge providing an opportunity for interaction and mutual exchange of ideas between teachers interested and/or working in particular areas of specialization
- Providing an opportunity for teachers to familiarize themselves with modern engineering practices, including the latest technological advances adopted by industry keeping in view the National needs and priorities and relevant technologies.

Data analytics & advanced excel are the hot areas nowadays and have applications in virtually all branches of engineering. The basic aim of this program is to make participants learn the applications of advanced excel in teaching and research and also to study how to transform excel data with different databases and vice-versa.

ABOUT CHANDRAPUR CITY

Chandrapur is also known as Chanda. The region is very rich in mineral wealth such as iron ore, limestone and coal. Many cement factories are located in this region. One of the biggest Thermal Power Station of our country is located here. It is around 150km south from Nagpur city and is well connected by rail and road transport.
