

RAJIV GANDHI COLLEGE OF ENGINEERING, RESEARCH & TECHNOLOGY, CHANDRAPUR

REPORT OF THE INDUCTION PROGRAM OF B.TECH. FIRST YEAR 2019-20 SESSION

The induction program of B.Tech. First Year students was organized in the institute from 5th August to 16th August 2019. The induction program was scheduled in two different sections, out of which the first section was conducted in college campus from 5th August to 10th August 2019.

Parents of all the students were also invited to participate in the inaugural program on 5th August 2019 to have interaction with all the faculties concerned with first year along with deans of various sections of the institute.

Shri. Shafique Ahmad, President, SPMS inaugurated the induction program. Mr. Moreshwar Zode, General Manager (Projects), Steel Authority of India Limited (SAIL), Chandrapur was the chief guest of the inaugural function.

Mr. Moreshwar Zode & Shri. Shafique Ahmad addressed the students and their parents about the changing trends of engineering education and expectation of industry from new generation engineers.

After the inaugural program, Dr. Z. J. Khan addressed the students and parents about the details of all the branches and he also introduced the Head of the various departments and Deans to the parents and students. Dr. Khan informed about various initiatives taken up by the institute to develop the personality and communication skills of students which will help them in securing jobs in campus placement. He also gave a detail of the success of campus recruitment of the students.

From 6th August, 2019 the induction program was divided in three parts. The first lecture of each day was given on a general topic of engineering importance by senior faculty of the institute. The second and third lecture was designed as English Foundation Course and Mathematics Foundation Course respectively. Lectures on following topics were given by faculty members as:

Day	Date	Name of the resource person	Topic
Day-2	6 th August 2019	Dr. H. S. Deshmukh, Associate Professor, Department of Mechanical Engineering	Engineering Career: how to shape it with present Challenges and opportunities.
Day-3	7 th August 2019	Dr. V. S. Gorantiwar, Professor, Department of Mechanical Engineering	All About Rajiv Gandhi College of Engineering Research & Technology
Day-4	8 th August 2019	Dr. S. S. Wazalwar, Assistant Professor, Department of Applied Chemistry	Ethics and Code of Conduct in the institute
Day-5	9 th August 2019	Prof. B. S. Ganguly, Assistant Professor, Department of Information Technology & In Charge TPO.	My First Job
Day-6	10 th August 2019	Prof. Charanjeet Dadiyala, Assistant Professor, Department of Information Technology & In Charge TPO.	Importance of Communication Skills

The second lecture was conducted by Prof. K. M. Muley on 7th August 2019 on the topic titled “Brief Overview of Skill Sets for Modern Engineers”.

On 8th, 9th & 10th August, the second lecture was conducted by Prof. P. H. Dhankar, Department of Electronics & Communication Engineering. His topic of talks was ‘English Communication Skills’.

From next week, the students were taken on a study tour to the Bamboo Research & Training Centre at Chichpalli, District Chandrapur. The centre is constructing a state of the art building made up of Bamboo. It is one of the unique type of construction which leaves minimum environmental impact.

Students were able to know about the unique features of this building and learnt about alternative materials and technologies used in modern construction engineering.

Students also learnt the importance of green building concept and use of local and native resources in engineering domain.

Dr. Sachin Wazalwar coordinated the induction program and study tours.
