Venue: -CAD Lab Department of Mechanical Engineering

BRIEF REPORT

Department of Mechanical engineering RCERT Chandrapur organized a one day workshop on “How to make Google form” on 29-05-2020 at 11:00 am in CAD Lab of Mechanical Department. This workshop was conducted by Prof. Pravin Padole Associate Professor Mechanical Department RCERT Chandrapur. Teachers who were present on this occasion were Dr. Pravin Potdukhe HOD Mechanical Department, Prof. N.K.Ade, Prof. S.D.Khamankar, Prof. Y.L.Yenarkar, Prof. S.R.Zaveri, Dr. R.E.Thombre, Prof. Mahesh Buradkar, Prof. P.H.Sahare, Prof. Pramod Buchunde, Prof. Amruta Wairagade.

DBATU University instructed us to send internal marks of Theory and Practical on their portal. But in this pandemic situation of COVID-19 we were unable to conduct Mid Sessional and Practical examination. So our Department Head Dr. Pravin Potdukhe asked us to conduct Mid Sessional exam through Google form in quiz format. Many faculty members were not aware about Google form so we arrange this workshop to get hands on experience to all the faculty members who were teaching to fourth semester of DBATU.

After this useful workshop all Faculty Members prepared the Google form and conducted MSE of DBATU from June 3, 2020. Prof. Pravin Padole guided us in an effective way. He taught us how to gather Student responses and how to schedule the quiz through Google Classroom. This workshop was beneficial to the faculty members teaching fourth semester of DBATU.
