BRIEF REPORT

Latest in IT Technology

A Technical talk by an Industry person, Mr. Amol Murkute, Senior Software Engineer, Wipro, Pune (Alumnus of Batch 2009, CSE) has been organized by the Department of Computer Science & Engineering & IT of Rajiv Gandhi College of Engineering, Research & Technology, Babupeth, Chandrapur on 14th January 2020 at 12:30 AM at CT-1 Classroom.

On this occasion, the guest speaker delivered his talk on the topic “Latest in IT Technologies “. This program was organized to make students aware about the current trends going on in IT industry and to motivate them to upgrade themselves with new skill sets. He urged the students to have ambition and vision to achieve the goal what they dreamt of and to select a promising career. During his talk, he mainly focused on the areas which will be in demand for the next five years in IT industry. He also shared in his talk, about different data science tools.

He discussed following technologies which have good growing opportunities.

- Artificial Intelligence
- Machine Learning
- Data Science
- Big Data and Cloud Computing
- Sales Force

The talk has been very informative and cheered by students of the department. Around 70 students from the CSE & IT department attended the programme.
